

Are you ready for real business opportunities? At this year's IAA Transportation, Hanover, Germany, the next 12-day developer sprint, Mobilitython 2022 will take place in cooperation with 5G APS: From September 9 to 23, 2022, your working prototype will have a chance for a follow-up contract or a founder scholarship. This time, the challenges will be set by DLR, EnPulse, and die Autobahn GmbH.

Here's what the schedule looks like:

09th Sept 2022: Receive the exact challenges in the virtual kick-off

09th Sept - 20th Sept 2022: Prototype preparation time

20th - 23th Sept 2022: Finals in Hanover, GER at IAA Transportation 2022

What to expect:

- **Who can apply?** You can apply as a team of max. 5 people (e.g., of your company) or as an individual. If you apply as an individual you will be assigned to a team by the prototype.club.
- **Attendance:** Participation in the final is possible virtually or onsite at the IAA.
- **Challenges:** Each team will pick one of three challenges to focus on during the developer sprint. Find more information to the challenges: mobilitython.com
- **Exciting prizes:** You can win a follow-up contract or the opportunity for a founder stipendium from one of the challenges sponsors or 5.000€
- **Free participation:** You will get a free IAA Transportation ticket for the whole week. We will provide all participants with food and drinks throughout the event at the IAA.
- **Networking opportunities:** The Mobilitython will give you a chance to meet experts and other startups in the mobility branch. You will get in contact with the venture builder EnPulse and established companies like 5G APS, DLR, and the Autobahn GmbH.
